AMUSEMENTS TONIGHT.
AT THE OPERAHOUSE—Paul Jones.

AN exchange says that there is a farmer in Ventura county whose name is Stubblefield and another named Haymaker and that Los Angeles has still another honest granger who bears the euphonic name of John Beamblossom. National City, says the Record, was once the residence of John Hellwagon and his wife's maiden name was Gocart.

The scene which the Exposition grounds at Chicago now afford, with most of the buildings nearing completion and the construction being pushed forward by more than 6,000 workmen, is accounted so interesting and wonderful that from 10,000 to 15,000 visitors a day willingly pay the admission fee of 25 cents to witness it. Before the abolition of the free pass system, the visitors often numbered as high as 15,000 or 20,000. The work of construction was interfered with, so that it was thought best to charge an admission and thus diminish the size of the crowd of sightseers and at the same time add to the financial resources of the Exposition.

COL. W. H. GILDER who was with Lieut. Schwatka in his expedition to the polar regions, proposes to head another expedition shortly to make a survey of the region of one of the north magnetic poles. An enterprise of this sort has the merit of much interest, since the whole science of terrestrial physics might be benefited by a careful location of the pole and observations made there. It is considerably below the physical pole of the earth, in the neighborhood of Greenland, and the chances of reaching it are much better than of reaching the physical pole, or finding the apocryphal northwest passage. There is another north magnetic pole on the opposite side of the globe north of Asia.

This proposition now pending to cut off the pay of Congressmen for such time as they are absent from their seats during session, unless engaged in committee work, is one that the whole country will indorse. Only a few days ago the House was forced to adjourn on account of the absence of a quorum. Thus a day was wasted at a cost of about \$7,000 to the country. There is no reason why Congressmen should not put in their time in the performance of their duties as conscientiously as other public employes, and it is a serious reflection upon them that they have not sufficient integrity to perform their duty without watching. Dock them for the time they spend in loafing and they may awake to a realizing sense of their obligations.

It is a pity that San Francisco has the big-head so badly that she cannot bear the thought of learning something from her more provincial sisters. The new electric railway in that city has been inaugurated, with a series of three accidents in six days. In the last one, a car became unmanageable and ran down a grade, endangering the lives of a score of people and seriously injuring several. In this way the reputation of the line will be seriously damaged and many people will be so prejudiced against it that they will not patronize it. Los Angeles has had an extensive system of electric roads in operation for months, and no serious accident has yet resulted. On this system there are some gradients as steep as any on the San Francisco line. If our up-country neighbors had come here and made a study of track-brakes and other contrivances in successful use, and had even invested a little money in purchasing the use of certain Los Angeles patents, it would probably have given them a better start and saved them thousands of dollars. Experience is a dear school, as they are probably finding out, but they rank with the class that will learn in no other.

At Akron, O., a few days ago there was a funny demonstration of how a trivial thing may lead to most serious consequences. About 9 o'clock in the morning a runaway horse dashed through the plate-glass window of one of the biggest banks of the city. The incident, of course, caused considerable excitement for a moment, and as the news of it spread through town some nervous and excitable individual connected the words "run" and "bank" in an ominous way. This idiot soon was convinced that there was a run on the bank, and he so told all the shop people in his neighborhood. That was enough. Nothing more was needed. By 12 o'clock that day there were hundreds of money-mad and frenzied men and women around that bank scrambling to withdraw their deposits. The broken plate-glass window only served to increase their excitement, and all attempts by the bank officials to explain the situation were howled down. By the closing hour in the afternoon thousands of dollars had been drained from the vaults of the bank, and but for other banks coming to the assistance of the unfortunate institution that night by distributing circulars around the city telling depositors that they (the other banks) would cash all checks, properly certified, on the bank with the broken plate-glass window, the run would have continued the next day and resulted in breaking the bank, for there is no institution that can stand a run without warning.

THE SOCIETY OF MECHANICAL ENGINEERS.
An event of great importance to this Coast will take place this month in the twenty-fifth annual meeting of the American Society of Mechanical Engineers at San Francisco. This institution comprises a membership of about 2,000 of the most prominent mechanical engineers of the United States. A considerable proportion of the great works of the present time are designed and conducted under the supervision of these men. Trained to close observation and to the forming of practical judgments, they will in their brief visit to our Coast carry away with them a great fund of information. At no time in the history of the world have capitalists

relied to so great an extent upon the judgment of trained engineers as at present, and it is safe to say that the impression we make upon this body of scientific men will have great weight in influencing men of capital in investing in Pacific Coast enterprises and securities.

It becomes therefore of great general importance that they be given a fair chance to see us at our best, and not be forced to base their judgment of our condition upon meager information. The Eastern cities where they have held their meetings have entertained them and provided excursions and visits to the points of interest in the vicinity. Would it not be well for the Chamber of Commerce to ascertain how many will return to the East by way of Los Angeles and provide some way of showing them our section in a fitting manner.

The engineers are to come out by way of the Central Pacific and have the option of returning by the way of Portland or of Los Angeles. It would not be time wasted to invite them this way and entertain them handsomely.

LET IN THE LIGHT.
In an address read before the "National Christian League for the Promotion of Social Purity," and published in the Church Union of April 15, the writer very earnestly says: I would that my listeners could realize the fact that without a knowledge of the evils which are lurking in our very midst, whether it be in the homes of the wealthy, in the Christian family, in the haunts of degradation and poverty, or in the municipal government, these evils cannot be met. They cannot be removed or restricted except by letting in light upon the thoughts and deeds of darkness. Christians must put forth practical efforts to this end according to knowledge, and they must seek this knowledge with unceasing diligence.

Let in the light upon them—that is what crime and evil of every form do not like. Evil had rather skulk in darkness. It would like to be left alone by the press and the pulpit, so that it may riot undisturbed. Exposure is what it dreads, for with that comes the fear of suppression and punishment and of general reprobation.

AT THE PLAYHOUSES.
GRAND OPERAHOUSE.—The Agnes Huntington company repeated Paul Jones at the Grand last night to a good house, and will give the same bill this evening.

POLITICAL POINTS.
Elections in France are always held on Sundays in order to save the convenience of workmen and peasants. The prohibitionists are talking about changing their party name. Prohibition, they say, is not the thing they are after, but suppression. The Cleveland World (Rep.) declares that "in case it should be ascertained that President Harrison does not have an adequate strength to be nominated on the first ballot, there is no man in the United States to whom the nomination would so logically come as to Gen. McKinley of Ohio. He stands for Republicanism through and through."

Gen. O. O. Howard shows himself a man of sense in declining to resign his position in the army to run as a Prohibition candidate for the Presidency. Gen. Howard is a man of sense and a friend of Gen. Grant. Because he has held office under three Republican Presidents, he who notoriously abandon their leaders. Any newspaper man who has ever at some time interested himself in the feelings of Gen. Howard's feelings.—[Kansas City Star.]

The liberal Gen. Gordon, always overflowing with star spangled sympathies, did not think of it to say a word of compliment for Gen. James. He has a friend of Gen. Grant. Because he has held office under three Republican Presidents, he who notoriously abandon their leaders. Any newspaper man who has ever at some time interested himself in the feelings of Gen. Howard's feelings.—[Kansas City Star.]

The widespread interest of educated young men in the principles of the Republican party was illustrated recently in the formation of a Republican club by the students of the University of New York. It was one of the most enthusiastic meetings ever held in the old building, and was attended by about 150 young men. Some of the most interesting and enthusiastic speeches were made by the young men. So persuasive, indeed, were their arguments that several Democratic students who had entered the meeting for obstructive purposes, supposedly, so far overcame the error of their ways as to join in the discussion and in cheering the Republican party.

More Harbor Defenses Needed.
WASHINGTON, May 4.—Senator McPherson today reported an amendment from the Naval Committee to the Naval Appropriation Bill, proposing to increase the number of harbor defense vessels from one to three, torpedo boats from two to ten and also providing for torpedoes, submarine and otherwise, for which latter purpose \$1,000,000 is appropriated.

Wyoming Ranchers Enjoyed.
CHRYSTEN (Wyo.), May 4.—Judge Ryner has granted a temporary injunction, restraining the ranchmen in northern Wyoming, especially in Johnson county, from making round-ups. Marshal Rankin, with a large number of deputies, has gone to the scene of trouble.

Factory Employees Cremated.
BERLIN, May 4.—The Strauss feather factory at Cannstatt, Wurtemberg, caught fire this afternoon. The flames spread with such rapidity that several employees were lost. The exact number of victims is not yet known. The fire is still raging.

San Diego's Flower Show.
SAN DIEGO, May 4.—The fifth annual flower festival was opened in this city tonight, and was by far the most elaborate flower display ever made in the county, and shows that great progress has been made in floriculture during the past year.

Movements of Cruisers.
SAN FRANCISCO, May 4.—The Cruiser Charleston sailed for Astoria late this afternoon.

Vallejo, May 4.—The cruiser Boston arrived here this morning from San Francisco.

Favors Bimetallism.
MANCHESTER, May 4.—The Chamber of Commerce of this city, by a vote of 164 to 14, has declared itself in favor of bimetallism.

WAR ON PACIFIC MAIL.

Bowers Assails the Company for Slighting San Diego.
A Resolution Offered for Annulling Its Postal Contracts.

The House Adopts the Conference Report on Chinese Exclusion.

Pension Bureau Investigators at Loggerheads With Secretary Noble Because He Declines to Produce Private Papers—National Notes.

By Telegram to the Times.
WASHINGTON, May 4.—[By the Associated Press.] Congressman Bowers has introduced a resolution instructing the Postmaster-General to annul the contract with the Pacific Mail Company, whereby the company receives a subsidy for carrying the mails between the United States and South America. The ground for the resolution is given to be that American citizens in an American port (San Diego) cannot receive from an American company the same privileges as are accorded to foreigners in foreign ports. In one place the resolution says:

The company grossly, unjustly and unlawfully discriminates against the American port of San Diego by refusing to receive or deliver freight at said port or to receive and transport passengers except at exorbitant rates, and has deliberately and persistently violated the spirit and letter of the act under which the contract was entered into.

The resolution without being read was ordered printed and referred to the Committee on Postoffices and Postroads, to be called up at the next meeting of the committee.

FIFTY-SECOND CONGRESS. FIRST SESSION.
WASHINGTON, May 4.—[By the Associated Press.] Senate—Morning business being disposed of, the Senate took up the calendar.

Among the bills acted upon was the Senate bill creating two additional land districts in the State of Montana. It was passed.

The Senate bill relating to the city of Monterey, Cal., the interest of the United States to a certain lot was passed.

The House bill for the disposition and sale of lands on the Klamath River Indian reservation in California was passed with a substitute and a conference was asked.

After an executive session the Senate adjourned.

House—Mr. Geary of California presented the conference report on the Chinese Exclusion Bill and demanded previous question on the adoption of the report and notwithstanding the protest of Mr. Hooker of Mississippi, it was so ordered.

Mr. Hill of Illinois opposed the report. The Senate bill was objectionable to him, but he recognized the urgent necessity of prompt legislation, and in reference to the wishes of the Pacific Coast he would not have antagonized the conference bill, which was better than the House bill, but the certificate provision, now added, was abominable. Never before in a free country had there been enacted such a system of tagging a man as if he were a dog. Never before has such a law been applied to human beings except convicts and slaves. He would vote to continue every existing law, but speaking for the honor of his country, he appealed to the gentlemen to observe the plighted faith of the nation. The measure was a violation of a pledge and one which no man could vote for without a blush.

Mr. Hooker in opposing the report said that in its present shape the bill virtually suspended the writ of habeas corpus, and against this he earnestly protested.

Mr. Geary denied that the bill suspended the writ of habeas corpus. The measure was intended to stop up leaks in the existing law.

The conference report was then agreed to—yeas, 186; nays, 28. The following was the negative vote: Andrew Boman, Belknap, Beltschouer, Brodus, Bushnell, Castle, Coburn, Coolidge, Cox (N.Y.), Craig, Culberson, Curtis, English, Ebes, Grand, Griswold, Grout, Hart, Lee, Haugheisen, Hendall, Herbert, Hill, Hooker (Miss.), Miller, Powers, Storer.

The House adopted a resolution calling on the Attorney-General for information as to whether the Sugar Trust has violated the anti-trust law, and so whether a prosecution has been instituted for such violation.

Mr. Scott of Illinois, who originally offered the resolution, spoke in denunciation of the Sugar Trust and favored the proposition. After some further debate the resolution was adopted.

On motion of Mr. Holman the House went into committee of the whole for the consideration of the general appropriation bills. The Sundry Civil Appropriation Bill first came up.

Mr. Blanchard of Louisiana demanded that the bill be laid aside in the interest of the River and Harbor Bill.

Mr. Holman objected and the facts were reported to the House, which decided—122 to 48—to lay the Sundry Civil Bill aside, and the committee reformed its session. The Postoffice and Fortification Bills were also laid aside and the River and Harbor Bill was taken up. Without action upon it the House adjourned.

NOBLE REFUSES.
He Declines to Show Private Papers to a House Committee.

WASHINGTON, May 4.—[By the Associated Press.] In the Pension Office investigation today Mr. Enloe called the attention of the committee to the fact that Secretary Noble declined to furnish papers relating to the dismissal of special pension examiners, although he promised to furnish any papers wanted. Mr. Enloe asked that the House be requested to take action on the matter.

He wished to see the papers because he believed that Theodore Smith had preferred unjust charges against a number of employees, and he took the refusal to furnish the letters to mean that they would bring out facts not creditable.

Mr. Brosius of Pennsylvania protested against an inference against the integrity of any officer of the government arising from his assertion of his constitutional right to control removals without being answerable to Congress.

Chairman Wheeler said Secretary Noble got his power not from the Constitution but from Congress, which by statute conferred the power of the appointment of inferior officers on the heads of departments.

The committee adjourned to give the members an opportunity to investigate the legal questions involved before deciding on their course of action.

To Succeed Gen. Stanley.
WASHINGTON, May 4.—Gen. Frank Wheaton, lately appointed Brigadier General, has been ordered to keep him-

self in readiness to command the Department of Texas on the retirement from active service June 1 next of Brig. Gen. D. S. Stanley. The officer promoted to succeed Gen. Stanley as Brigadier-General will probably be assigned to command the Department of the Columbia.

To Enforce the Exclusion Act.
WASHINGTON, May 4.—The Committee on Foreign Relations offered an amendment to the Sundry Civil Appropriations Bill, altering the amount for the enforcement of the Chinese Exclusion Act from \$50,000 to \$100,000.

Treasury Purchases of Silver.
WASHINGTON, May 4.—Offerings of silver to the treasury aggregated 1,193,000 ounces. The amount purchased was 420,000 ounces at prices ranging from \$0.8785 to \$0.8748.

THE METHODISTS.

Bishop Foster's Address at the Omaha Conference.
Woman's Rights in the Church, Worldly Amusements and the Secular Press Among the Topics Considered—Negro Conference.

By Telegram to the Times.
OMAHA (Neb.), May 4.—[By the Associated Press.] Bishop Ward presided at the morning session of the Methodist conference. Rev. Mr. Wiley of New York conducted the devotional exercises.

Bishop Foster then began the Episcopal address. He was listened to with the profoundest attention.

The bishop said that the missions to foreign lands are in excellent condition all over the world. No schisms, no dissensions have appeared in the church during the past four years. The church has experienced a wonderful growth since the last general conference. Fully 400,000 members have been added, a greater gain than was ever known in history. The speaker then touched on the vote in the annual conference and churches upon the admission of women to the general conference with the following result: The laity vote stood: For admission, 235,668; against, 168,898. The ministerial vote was: For admission, 5609; against, 4944. The speech warmly commended the establishment of a Methodist University at Washington, D. C., to perpetuate Chinese exclusion legislation.

The Episcopal address declared that legal prohibition of the liquor traffic is the only true solution of the great problem. The church is congratulated upon the growing spirit of fellowship among the various denominations. The relations between the various branches of the Methodist Church, between the colored and the white brethren, are very cordial and satisfactory. The Methodist Church is still watching faithfully the interest and rights of the colored race.

Upon the subject of popular amusements, the address held that while the church members should not make hermits of themselves, they should refrain from a great deal that worldly people patronize. The church is non-sectarian and non-political. The secular press is regarded by the bishops as one of the greatest powers of modern civilization. He deplored the fact that the secular press sometimes becomes the means of promoting political corruption and personal greed and aggrandizement, to the detriment of good morals and the rights of the people.

In closing Bishop Foster admonished the delegates to weigh well every question and act wisely and conscientiously in the deliberations of the session.

The time of the conference was occupied during the afternoon by the organization of committees.

A mass-meeting was held tonight at Exposition Hall in the interest of the Freedmen's Aid and Southern Education Society. Bishop Waldron presided. Addresses were delivered by Mr. Hartzell and Dr. J. F. Spence.

MORE ANARCHIST PLOTS.

Continued Activity of the Dynamiters in Europe.

A Socialist Member of the British Commons Suspended.

Deeming Now Convinced That He Will Be Duly Worked Off.

Conviction of a Gang of Child Slayers in Russia—Milbank's Adversary in the Late Duel an English Duke.

By Telegram to the Times.
BRUSSELS, May 4.—[By Cable and Associated Press.] Today at Mons a man was arrested who divulged the fact that he was concerned in an Anarchist plot. The prisoner, with four other men, had arranged to blow up the houses of Roulier and Bollie, bankers, at Mons, and also the residences of other leading citizens. The arrested man had in his possession five powerful dynamite cartridges, and it is believed if he had not talked indiscreetly to a supposed fellow workman, who was a detective in disguise, Mons would have suffered a series of disastrous explosions. It is expected the four other men will shortly be arrested.

The police today discovered the location of an Anarchist nursery in the outskirts of the city. A printer was arrested. A dynamite cartridge was found on the window sill of a house in Warrome near Liege. The fuse was ignited, but was quenched and an explosion prevented. The police of Liege today searched over forty houses in which Anarchists resided.

LIEGE, May 4.—Blanjean, the man arrested for causing the explosion which wrecked the residence of Count Minette, has confessed his guilt. He incriminated a number of other Anarchists, who were arrested today. Two of today's prisoners are named Nosent and Lacroix. The police have discovered evidence of a most formidable Anarchist conspiracy, the headquarters of which are in Liege. The conspirators are thoroughly organized. The police expect to arrest many of them.

ROW IN THE COMMONS.

A Socialist Member Suspended for Using Violent Language.
LONDON, May 4.—[By Cable and Associated Press.] In the Commons today, while Herbert Asquith was speaking on Haldene's Land Bill, he declared that land differed from consols and commercial enterprises. He was interrupted by Cunningham E. Grahame, Socialist, who excitedly asked, "How about swindling the shareholders in a company?" Amid cries of "order!" Grahame shouted, "This is a swindling speech!"

Confusion reigned in the House and the Speaker called for order. The latter refused to be silent and the Speaker "named" him. This action was greeted with cheers and Grahame retorted: "All right. I am named for standing up for Socialism!"

This caused renewed confusion and Home Secretary Matthews moved that Grahame be suspended. The motion was seconded and adopted with dissenting votes, the suspension being for one week.

When Grahame left the House the confusion subsided, and the bill was put to a vote but rejected by 228 to 146.

"ANGEL MAKERS."

Six Persons Convicted of a Series of Shocking Murders.
ST. PETERSBURG, May 4.—[By Cable and Associated Press.] At Vilna today six Jews and Jewesses were convicted of murdering babies entrusted to their care and sentenced from two to twenty years' penal servitude. In many instances the murders were committed with the connivance of the mothers of the little victims.

The first clew to the murders was discovered in April, 1890, when the bodies of six small children were found in a cesspool of a wretched hovel in Vilna. Further research led to the discovery of the remains of sixty-five infants. Forty-five men and women were arrested and 850 witnesses were summoned to testify.

The dispatch from Vilna does not state whether all the prisoners were tried and only six convicted, but it is supposed only six were tried. The prisoners gained the colloquial name of "angel-makers."

DEEMING IS BLUE.

He Has No Faith in His Appeal—His Autobiography.
MELBOURNE, May 4.—[By Cable and Associated Press.] Deeming, now become very downcast during the past twenty-four hours and has abandoned all attempts at cheerfulness. He appears to put but little reliance in the pending appeal to avert the fate in store for him.

He admits that he is now partly convinced that he committed murder, but insists that he does not remember it. He expresses no regret, and makes no unusual profession of repentance, declining to see the jail chaplain or clergyman.

A biography which Deeming is writing details at length the killing of his wife and four children. The governor of the jail has seen the manuscript and says the story is incoherent.

Probably after the execution experts will examine Deeming's brain in order to determine the question of his sanity.

MILBANK'S ADVERSARY.

LEEDS, May 4.—The Yorkshire Post says that it is reported that the mysterious opponent of Milbank in the recent duel in Belgium was one of the best-known English dukes.

New York, May 4.—The Herald's London special affirms that the reason Milbank has not returned to Paris or London from Brussels since his last duel at Ostend, is that he is under arrest in Belgium for duelling and out on parole. He will probably be able to secure a conditional release before Saturday.

Palacio's Chief Killed.

NEW YORK, May 4.—The Herald's Venezuela correspondent, cabling from Camuna, states that among the many unverified rumors there is one that Casanas, Palacio's chief, has been killed in his camp at Calaboz by lancers who pretended to desert and join the government standard.

Young Bismarck to Marry.

VIENNA, May 4.—The engagement of Count Herbert Bismarck and Countess Margarety Hogas is announced from Flume. The Countess is a granddaughter of Robert Whitehead, inventor of the Whitehead torpedo, and is said to be wealthy. The marriage will take place shortly in Flume.

POLITICS IN THE EAST.

Convention Proceedings in Many of the States.

Illinois Republicans Shout Themselves Hoarse for Blaine.

Gen. Hawley's Address to the Connecticut Convention.

Cleveland the Favorite of the Badger State Democrats—Everything Said to Be Rosy in the Alliance Camp.

By Telegram to The Times.

SPRINGFIELD (Ill.), May 4.—[By the Associated Press.] The Illinois delegation to the Republican National Convention will cast a solid vote for the renomination of President Harrison, under instruction of the Republican State Convention, if the recommendation of the Committee on Resolutions tonight made is carried out. At midnight the committee, 18 to 3, decided to add a resolution to the platform endorsing in the warmest terms the administration of President Harrison and instructing the State delegation to vote as a unit for his nomination at the national convention.

The convention met this afternoon. Congressman A. J. Hopkins was chosen temporary chairman. He addressed the convention at length on the issues of the day.

Chairman Hopkins' speech was loudly applauded, especially the mention of Harrison and Blaine. The latter came in for the lion's share, and hats, coats and umbrellas were thrown into the air, while the delegates yelled repeatedly: "What's the matter with Blaine?" When the chairman predicted that the candidate nominated at Minneapolis would be elected there were loud cheers of "And his name is Blaine! Blaine!"

"It is so written in the book of fate," said the chairman, continuing his speech, but the delegates interpreted this as meaning an endorsement of their suggestion of Blaine's nomination, and again that popular leader was loudly cheered.

After reading a telegram from Senator Culham commending the convention and the convention adjourned until tomorrow.

This evening the Committee on Permanent Organization decided to make the temporary organization permanent. The Committee on Resolutions, after a lengthy argument from delegates and a warm discussion in executive session, settled the vexed compulsory education question by adopting a plank in favor of the repeal of the present law and the enactment of another which will preserve the principle of compulsory education in the English language, but protect parents and private and parochial schools from unnecessary official interference.

NUTMEG REPUBLICANS.

The Convention Meets—Gen. Hawley's Address—The Platform.

HARTFORD, May 4.—[By the Associated Press.] The Republican State Convention reassembled here this morning. The Committee on Permanent Organization reported a list of officers headed by Senator Hawley as permanent chairman. They were elected. Gen. Hawley on taking the chair made a speech.

Gen. Hawley began by predicting a hot campaign. He reviewed the party's history. Referring to its achievements he said that in none of these things have we had the cordial cooperation of the Democratic party. In almost every one we have had vigorous opposition. Referring to possible candidates at Minneapolis, the speaker said:

"I am not here to say who shall be or who should be the nominee of our party for the presidency. I know a warm place in the hearts of many of you is always occupied by James G. Blaine; I know well that all Republicans were saddened by the announcement that he withdraws from his candidacy. Since he has the genius to be loved, let him have the justice to be honored. Benjamin Harrison has proved himself one of the ablest statesmen in the line of Presidents. He conducted the treasury when the Secretary was disabled; he became Secretary of State when Blaine was compelled to close his portfolio. He is well qualified as a substitute for any member of his Cabinet."

Gen. Hawley then paid a tribute to the wisdom of Harrison's appointments, from the Cabinet down, and the felicity of his speeches in his journeys through the country. The speaker then took up the tariff. He said:

"We are not deceived by the cry concerning free raw material. Iron ore at \$3 a ton is 90 per cent. labor; it is one man's finished product as true as the political hair-spring of a watch is another man's. The wool of sheep is labor, the perfected product of the farmer. Tariff cannot create monopoly in anything 65,000,000 people are free to produce."

Referring to money, these were the general words:

"In our humble judgment, not only as Republicans, but as men generally, those men err not only in their economic experience, but against morality, when they demand of the Nation that it should pay the silver dollar for every 70 cents' worth of silver, ingots or old spoons, as a coin that he may push upon his creditor or other creditor for a dollar. The Government has paid him his extra 30 cents and it then holds itself bound to make good the agreed 30 cents to whomsoever carries the dollar. Our silver bill of 1890 does enough when it puts out a silver dollar for every marketable dollar's worth of silver to the extent of \$4,000,000 ounces a year, and when it pledges itself to make every dollar of whatever kind as good as any dollar of any kind, it is believed by the world that we make good our paper dollars, issued as the money of war. We may not be true prophets in saying that unlimited coinage would bring upon us a non-metallic currency, a practical gold derangement of our international commerce and disaster to our financial institutions, and most heavily always, of course, to the poorer people; but we see no necessity for making an experiment so dangerous in the face of the belief of the wisest financiers and wisest men of other lands. If all civilized nations would join us in a general attempt to readjust the relations between the two metals, we can carry our end of the bargain."

The General closed with a strong appeal for coast defenses and a new navy.

The platform indorses Harrison's administration, protection and reciprocity. It denounces the proposed Democratic tariff legislation and commends the financial policy of the Republicans.

The platform reasserts the undying gratitude of the Republican party to the American volunteer soldier whose heroism preserved the Union and washed out of the flag the stain of human bondage. It claims for those whom they made free men, equal rights and equal protection in those rights. It commends the policy of the Republican party in maintaining an honest and active currency and asserts that to the Republican party alone the people must look for the preservation of the good faith of the Nation in all matters of finance. The platform also deals with the recent State troubles and heartily approves the position of the House of Representatives of Connecticut the constitutional duty of the General Assembly is

to find those legally chosen, and disputes the claim of the Democratic Senate that incorrect returns of moderators are final and binding upon the legislature. The Democratic Senators are condemned for their stubborn refusal to unite with the House in legislation imperatively needed to prevent similar complications in future elections. After choosing delegates-at-large to the national convention the convention adjourned.

WISCONSIN DEMOCRATS.

A Resolution Against Free Silver in Their Platform.

MINNEAPOLIS, May 4.—The Democratic State convention met here this afternoon. Robert Leeds was chosen temporary chairman. He delivered an address on taking the chair. Every allusion to Cleveland elicited enthusiastic applause.

The platform denounces the extravagance of Lamson's administration; declares public office a public trust; favors tariff for revenue only; on the currency question it says:

"We maintain that the true interests of the people demand a sound, honest, stable money, composed of gold and redeemable in gold and silver coin of equal intrinsic value. We therefore oppose the project of the unlimited coinage of silver dollars of less commercial value than gold dollars as undemocratic, dishonest and specially hurtful to the farmers and laboring classes, the first and most defenseless victims of unstable money and fluctuating currency. We denounce the Republican legislation on this subject, most particularly the Sherman act of 1890."

After the enthusiasm over the platform had subsided Chairman Leeds called for a rising vote on the adoption of the same, which was carried. Senator Vilas, Gen. E. S. Bragg, E. S. Wall, John A. Knight, were chosen delegates at large to the Chicago convention. Gen. Bragg closed the convention by a speech warmly eulogizing Grover Cleveland, and approving the stand taken by the convention in regard to silver.

A big ratification meeting was held tonight under the auspices of the Jefferson Club. Great interest was aroused at the meeting by the announcement that the Governor had just decided to call an extra session of the Wisconsin Legislature to deal with the gerrymander declared unconstitutional by the State Supreme Court.

MICHIGAN DEMOCRATS.

The Delegates All Favor Cleveland, But Some Want Free Silver.

MUSKEGON (Mich.), May 4.—[By the Associated Press.] The Democratic State Convention met at noon. All the delegates favor Cleveland, but there is a section in favor of free silver, and it will make an earnest effort to have a free silver plank inserted and adopted. If this element is not represented on the Platform Committee there will be a contest.

At 10 o'clock the different districts held caucuses to choose delegates to the national convention. The convention met shortly after noon. H. B. Hudson was chosen temporary chairman.

After recess to allow the committees to make reports the convention reassembled. Hon. Peter Whote was chosen permanent chairman.

In the course of his address he pointed dramatically to the portrait of Cleveland as that of one man dearer than all others in the hearts of the American people. The convention rose in a body and gave cheer after cheer.

White made an eloquent speech in which he referred in glowing terms to Cleveland, the name drawing forth a wild burst of approval.

Don M. Dickinson, Spencer O. Fisher, Edward Ryan and Edwin F. Uhl were selected delegates-at-large. Chairman Compton telegraphed Cleveland tonight that the largest Democratic State Convention in the party's history had elected a unanimous Cleveland delegation and instructed that vote as a unit, adding that in this action the delegation will express the exact sentiment of the Michigan Democracy.

Everything Rosy in the Alliance.

BIRMINGHAM (Ala.), May 4.—The Age-Herald is furnished with the following as a correct statement of the Alliance's proceedings and prospects: Perfect harmony seems to prevail, and a wise conservatism that will prevent any radical action governs the entire work in the different States. All express themselves as determined to support the Alliance principles and seem disposed to keep the order entirely free from any partisan entanglements. In all probability the resolutions will favor preserving to membership inviolate the fullest right and freedom of action fully and with any party, making support of Alliance principles the only test of fealty.

Maryland Republicans.

FREDERICK (Md.), May 5.—The Maryland Republican Convention was called to order by Harry M. Claiborne, chairman of the State Central Committee. The contesting delegations from Baltimore, representing Postmaster Johnston's element of the party (the administration faction), were quickly decided to have no standing, and the James G. Gary delegates were seated. Charles T. Westcott was made temporary chairman. The delegates-at-large are James A. Gary, Maj. Alexander Shaw, Thomas H. Hodson and Louis E. McCombs. Harrison's administration was indorsed and the delegates instructed for him. The platform has a plank against the free coinage of silver.

Republicans Win at St. Paul.

ST. PAUL (Minn.), May 4.—Returns compiled today verify the claims of the Republicans of having carried the city ticket and a majority of the Council. Altogether it was a landslide. This is the first time in twenty years that the Republicans have carried the city.

Maine Prohibitionists.

BANGOR (Me.), May 4.—The State Prohibition Convention was called to order this afternoon by W. W. Perry of Portland. The convention has no particular preferences for Presidential nomination.

Tennessee Republicans.

NASHVILLE (Tenn.), May 4.—The Republican State Convention opened today for the selection of delegates-at-large and the nomination of Governor.

The delegates were instructed for Harrison. For Governor John E. McCall was the favorite. The ballot for Governor, however, resulted: McCall, 270; Winstead, 412, and Winstead's nomination was made unanimous.

Plundered Indians Appeal to Miles.

CHICAGO, May 4.—Gen. Miles today received dispatches from Bal Wade in Indian Territory saying that many Cheyenne and Arapahoe Indians have called on him and protested against paying exorbitant fees to attorneys whom they had never employed, to secure their entry papers. These lawyers intruded themselves on the Indians and filed claims for attorney fees in the Land Office, where they were allowed. The Indians, who claim they were defrauded, urged Wade to lay the grievance before Miles, in whom the Indians have confidence but who is powerless in the matter.

THE BALL FIELD.

Good Luck Still Follows the San Jose Players.

A Home Run in the Ninth Inning Gives Them a Hard-earned Victory Over San Francisco—Eastern Games.

By Telegram to The Times.

SAN FRANCISCO, May 4.—[By the Associated Press.] The San Francisco and San Jose teams played a very interesting game today at Oakland, San Jose winning, 5 to 4. The score was twice tied and the clubs ran an even race until Dooley won the game for his side in the ninth inning by knocking out a home run. There was not much hitting on either side and the fielding was very fair.

NATIONAL LEAGUE.

The Chicagoans Win a Twelve-Inning Game with Baltimore.

CHICAGO, May 4.—[By the Associated Press.] She colts had a hard struggle but finally won in the twelfth inning, batting in two earned runs. Chicago, 6; Baltimore 4. Hits—Chicago, 10; Baltimore 11. Errors—Chicago, 5; Baltimore 3. Batteries—Luby and Schriver, McMahon and Robinson.

ST. LOUIS, May 4.—The Browns won because their errors were not as costly as New York's.

ST. LOUIS, May 4.—New York, 3. Hits—St. Louis, 5; New York, 4. Errors—St. Louis, 3; New York, 4. Batteries—Gleason and Buckley, Rosie and Boyle.

Western League.

OMAHA, May 4.—The Milwaukee game was postponed on account of rain.

ST. PAUL, May 4.—St. Paul, 7; Toledo, 8.

KANSAS CITY, May 2.—The Indianapolis game was postponed on account of rain.

MINNEAPOLIS, May 4.—Minneapolis, 6; Columbus, 7.

CLEVELAND, May 4.—The Cleveland's inability to hit Kilborn caused their defeat.

Cleveland, 1; Washington, 3. Hits—Cleveland, 4; Washington, 7. Errors—Cleveland, 2; Washington, 1. Batteries—Davis and Boyle, Kilroy and McGuire.

PITTSBURGH, May 4.—Ehret had no control of the ball and the Phillies won with the greatest ease.

Pittsburgh, 5; Philadelphia 11. Hits—Pittsburgh 12; Philadelphia 13. Errors—Pittsburgh 2; Philadelphia 3. Batteries—Camp and Ehret, Earle, Weyhing and Clements.

LOUISVILLE, May 4.—Louisville led until the sixth inning when the Boston bunched their hits and won.

Louisville, 3; Boston 4. Hits—Louisville 5; Boston 9. Errors—Louisville 3; Boston 3. Batteries—Jones, Grim, Nichols, Kelly.

CINCINNATI, May 4.—The stupid playing of Mullane and errors by Smith lost the game.

Cincinnati 2; Brooklyn 4. Hits—Cincinnati 3; Brooklyn 7. Errors—Cincinnati 3; Brooklyn 3. Batteries—Mullane, Murphy, Stein, Winslow.

To be Quickly Hanged.

TRENTON (N. J.), May 7.—Edward Halligan, a negro wife-murderer of Jersey City, who was sentenced to hang twice but was saved each time through a lawyer who asked for a writ of habeas corpus, will, it is reported, be sentenced in the Hudson county Court of Oyer and Terminer tomorrow morning and hanged in the afternoon. The unusual proceeding will be justified, it is said, in order to keep Lawyer Peschall from appealing the case again, as one appeal has just been set aside by the United States Supreme Court.

The Omaha Bridge Case.

ST. LOUIS, May 4.—The case of the Union Pacific against the Rock Island and St. Paul is set to be argued in the Court of Appeals. It involves the right to the bridge of the Union Pacific, whereby the Rock Island had the privilege of running cars across the Missouri River at Omaha and over eight miles of appellant's track. The Union Pacific refused to abide by the agreement.

Huntington's Purchase.

SAN FRANCISCO, May 4.—The published statement was made here this afternoon that the handsome residence on "Nob Hill" of the late Gen. Cotton, one of the promoters of the Central Pacific Railroad, had been purchased by C. P. Huntington. The sum paid by Huntington is stated to be \$250,000.

The Cordage Trust Suit.

NEW YORK, May 4.—An officer of the Cordage Company said today, referring to the civil suit which it is reported the Government is going to bring against the company: "We have no information of any suit, except what is stated in the newspapers, and do not believe it is going to be brought."

The Texas Method.

GREENVILLE (Tex.), May 4.—Capt. J. M. Cook, a prominent citizen, was shot dead by A. B. Turner, a mill and gin owner. A disagreement over a trivial business transaction was the cause.

A Californian Nominated.

WASHINGTON, May 4.—The President has sent to the Senate the nomination of Richard Lambert of California as United States Consul at Marazion.

DR. KWONG,

The well known Chinese Doctor, who has made himself famous by his wonderful cures of CHRONIC DISEASES.

Read the following testimonials: I was an invalid for 21 years and doctored a great deal without any benefit. Some American doctors here claimed I had a tumor, which must result in having an operation performed. I quit them and went to Dr. Kwong, who cured me sound and well in six weeks' time.

MRS. HANNAH CHEESEBROUGH, 829 San Pedro street, Los Angeles.

I was treated by American doctors for four years for stomach trouble, indigestion and dyspepsia, but got no relief. Dr. Kwong cured me in two months' time.

DR. WOH,

The Celebrated Chinese Physician.

Dr. Woh's practice covers ten years in China and fourteen years in Los Angeles. Hundreds of testimonials of wonderful cures have been presented to him and are now on exhibition at his office. Men, women and children suffering from every form of disease, many thought to be incurable, have been successfully treated by the Doctor during his long practice. All who are afflicted and those that judge themselves beyond recovery call upon the Doctor and they will be grateful beyond all else. A fair trial alone will convince the most skeptical of the wonderful success of this treatment.

In the healing of diseases of women and all known forms of sickness the Doctor has no superior. Only the purest of herbs and their extracts are used as healing and restorative medicines. Dr. Woh is the oldest and best known Chinese doctor in Southern California. He is a thorough professional gentleman, a fluent English speaker and a learned physician.

Dr. Woh invites all who are afflicted to call upon him at his office. Consultation is free.

Wonderful Cures

DR. KWONG,

713 South Main Street, - - - Los Angeles, California.

醫良世壽 妙藥精脉 "Skillful cure increases longevity to the world" "Ingeniously locating diseases through the pulse and excellent remedies are great blessings to the world."

The above are two fac similes of many REWARDS OF MERIT or DIPLOMAS OF PROFESSIONAL SKILL which have from time to time been awarded to the CELEBRATED CHINESE PHYSICIAN, DR. KWONG, for his superior medical abilities and curative powers. It has long been customary among the Chinese people when one becomes sick and when repeated attempts to cure him have failed, and he is perhaps given up to die, if after having been taken to an eminent physician, he is cured of his disease—the cured, too in addition to the regular fee for professional services rendered, makes the physician a present as a token of gratitude for his restoration to health and the prolongation of his life. This present consists usually of a broad plank, presenting much the appearance of a sign-board, filled with characters entirely meaningless to the average English scholar, but full of meaning to the successful physician and his friends. It is a motto which highly compliments the physician for his great skill in effecting a cure of the disease which once afflicted the donor.

It is not an uncommon thing to see a great number of these COMPLIMENTARY DIPLOMAS adorning the office walls of Chinese physicians in their native country, and indeed a number of the most successful ones in this country are the happy possessors of a few of these high tokens of very superior medical ability.

THE PREUSS-SCHUMACHER RECEPTION.

The reception given by Mrs. E. A. Preuss and her sister, Mrs. Nellie Schumacher, yesterday at their residence on South Broadway, was the social event of the after-Lenten season and was one of those quietly elegant affairs always so enjoyable. The street fronting the residence was literally blocked with carriages during the hours of receiving, which were from 3 to 6 p.m. As the door swung open to admit the guests the fragrance of flowers and the exquisite music from Romandy's orchestra delighted the senses. The parlors were thronged with beautifully-costumed women, many an Easter gown and bonnet here receiving its social christening. The hostesses, standing in the alcove of the drawing-room, welcomed the guests. Mrs. Preuss, in a beautiful gown of cream and red crepe, richly trimmed with Irish lace, received her friends with that charm of manner peculiarly her own, and by her side stood Mrs. Schumacher, her graceful figure robed in white crepe.

The decorations were artistic and elegant. The hall was a feature in itself with its reeds and grasses interlacing the balustrade, nodding from newel post and doorway and reflected in the hall mirror. The parlors were in yellow and red—great clusters of flaming cacti and amaryllis blossoms. Fuchsias dropped their crimson, purple-tongued bells from crystal jars and a bowl of lovely iris blossoms mounted on a stand made a pretty corner piece. The mantels and grates were massed with ferns and horse-tails and the snowy, plumelike blossoms of papyrus, and over all fell a flood of golden light from the yellow shaded chandeliers. Nothing was gaudy, all being in harmonious taste.

The dining-room was a symphony in pink and blue. The mantel was massed with exquisite La France roses, fringed with dainty forget-me-nots. A horn of plenty, overflowing with pink roses, was suspended in a corner by loops of pink satin ribbon falling in graceful festoons. The sideboard looked cool and inviting with its masses of green ferns clustered about the punch bowl.

The chandelier was shaded with pink and the rosy light fell softly from pink candelabra on the table covered with snowy damask strewn with forget-me-nots and rosebuds. Refreshments were daintily served by a corps of trained waiters, and a bevy of young girls—Misses Jennie Bonsall, Louise Dunn and Daisy Rose—flitted in and out of the dining-room.

Among the many guests were noticed: Meses. R. S. Baker, J. Winston, W. Pridham, J. Wheeler, Clay Green of New York, W. H. Bonsall, A. D. Childress, D. McFarland, E. A. Otis, Hancock Banning, Whiting, George Patton, J. S. Stauson, McNiel, R. M. Widney, L. J. Rose, S. C. Hubbell, J. E. Plater, W. S. Moore, Charles Forman, L. J. Rose, W. Hopkins, G. Wiley Wells, M. Hughes, Mrs. and Miss Willcox of Philadelphia, Miss Jessie Butler, Mrs. Moye Wicks, Mrs. G. B. Mansfield, Miss Waddilore, Mrs. S. B. Caswell and many others.

VON BUSKIRK-MOLL.

The wedding of Ed Von Buskirk to Miss Attillie Moll took place on Tuesday evening last at their new home on Pico Heights. The ceremony was performed by the Rev. F. W. Johnson of Calabanga Valley. The bride was very prettily attired in cashmere, trimmed in lace and wore orange blossoms in her hair and corsage. After the congratulations the party repaired to the dining-room where a sumptuous wedding supper was served. Among those present were Mr. and Mrs. Phil Hirschfeld, Mr. and Mrs. Caler, Mr. and Mrs. J. Moll, Sr., Mr. and Mrs. J. S. Von Buskirk, Mr. and Mrs. Charles G. Moll, Misses Naoma Caler, Clara Reid, Bessie Von Buskirk, May Sickler, the Misses Moll, Master Waldo Emerson Moll, Messrs. Sam Von Buskirk, George Ferguson, Carl McStay, Ward Hagen, John Jones, Jessie Von Buskirk, F. J. Moll. The presents were costly and numerous, consisting of a beautiful mantel clock, a solid redwood center table, silverware and many other beautiful and useful articles. The guests departed wishing the young couple many years of prosperity.

CHAPIN-ENOS.

A charming home wedding occurred last evening at the residence of Mr. and Mrs. H. R. Warner, on South Hill street, the bride being Mrs. Ida M. Enos of this city, niece of Mrs. Warner, who was united in marriage to E. C. Chapin of Chicago. The elegant appointments of the pretty home were heightened by the artistic arrangement of flowers. Roses bloomed from mantels, were reflected from cabinet mirrors, and fringed the lace draperies of the alcove where the groom and his handsome bride stood under a tilted umbrella of pink roses lined with pure white. The ceremony was performed by Rev. Dr. J. W. Campbell, pastor of the First Methodist Church, and was witnessed only by the immediate friends of the couple. The bridal party entered the parlor to the strains of the wedding march played by Mrs. Palmer of Chicago, and a more beautiful bride than faced the little company of guests has not graced the altar in many a day. The bridal robe of ivory crepe, en traine, richly trimmed with lace ribbons and jeweled passementerie, was marvelously becoming to her brunette beauty. A string of pearls encircled her throat, and she carried a big bunch of white sweet peas in her gloved hands. After congratulations had been offered the wedding guests were invited to the dining-room, where a delicious wedding supper was served from a table bright with flowers.

Some handsome presents were received, the groom presenting his bride with an elegant watch and chain.

The guests included Mr. and Mrs. H. B. Warner, C. D. Warner, Mr. and Mrs. Palmer and Mrs. Lincoln of Chicago; Mr. and Mrs. Frost, Mrs. Henderson, Mrs. Burnham, the Misses Henderson, Master Henderson, all of Pasadena; Mr. and Mrs. Danahy, Mrs. Danahy, the Misses Freeman and Mrs. C. Bouck.

Mr. and Mrs. Chapin went at once to Hotel Lincoln, where they will be at home to their friends after the 8th inst. until the last of the month, when they leave for Chicago to pass the summer, returning to Los Angeles in the autumn.

The bride has many friends in this city whose warmest congratulations are hers. Mr. Chapin is one of the managers of the Chicago Graphic and an experienced newspaper man.

LONG-BEACH PARTY.

A very delightful evening was spent at the skating rink at Long Beach Monday evening in honor of the nineteenth birthday of Walter Bullock; the affair was in sheet and pillowcase uniform. Refreshments were served at 10 p.m. The following guests were present: Mr. Lowe and wife, Mrs. Bullock, Mr. Bixby and wife, Mr. Dunn and wife, Mr. Sweeney and wife, Mr. McCracken and wife, George Curtis and wife, Capt. Healey and wife, Misses Trucey, Boyle, Lowe, Robinson, Spalding, Dunn, Blanch Healey, Maude Healey, Miss

There is a Difference

In make up: Most baking powders contain ammonia or alum. Cleveland's does not, not a particle; it is composed of pure cream of tartar and bi-carbonate of soda, with a little flour to keep the strength, nothing else. That is why Cleveland's is the most wholesome.

In strength: A rounded teaspoonful of Cleveland's Baking Powder does better work than a heaping teaspoonful of any other; a large saving on a year's bakings. That is why Cleveland's leavens most.

In results: With most baking powders cake is coarse grained, gets dry and "husky;" with Cleveland's, it is fine grained, keeps moist and fresh. That is why Cleveland's leavens best.

PERSONAL MENTION.

Mrs. Charles Forman will entertain a company of lady friends at a thimble party tomorrow afternoon at her home on West Pico street.

Mrs. Glassell gave a large reception yesterday afternoon and evening.

Mrs. Clay Green of New York, who is the guest of her parents, Col. and Mrs. Wheeler, at the Baker block, has so far recovered from her recent illness as to be able to appear in social circles, to which she is a welcome addition.

Mrs. J. E. Plater leaves the last of this month for San Francisco, where she will join a party of friends for a trip to Alaska, sailing on the Queen about June 1. On her return she will visit Mrs. Hayden McLellan and daughter at Seattle.

Mr. and Mrs. Willcox and charming daughter of Philadelphia, who have been spending a couple of months with Mrs. M. Hughes of St. James Park, who is a sister of Mrs. Willcox, leave today for their home, going by way of Monterey, San Francisco, Tacoma, Seattle and Vancouver. Mrs. Hughes will join them next week in San Francisco and accompany them north as far as Vancouver.

Mr. and Mrs. George Mason of South Grand avenue leave today for a trip to Yosemite. They will be absent a week or ten days.

Mr. and Mrs. A. E. Rogers of Quincy, Ill., are visiting Mrs. Warner and daughter, Mrs. Bushnell, No. 1929 Estrella avenue.

The third meeting to complete the organization of the Young Women's Christian Association of this city occurs this morning at 10:30 at the Y. M. C. A. Hall. All women interested in this grand movement for young women are earnestly requested to be present.

William Reed, who was arrested several days ago on complaint of George R. Cooper, who claimed that Reed beat him in a fight, was tried before Judge Smith yesterday morning and found guilty.

A heavy real estate deal was recorded yesterday, the transaction involving \$300,000 and consisting of 2820 acres of land known as "Salt Flats," "Rattlesnake Island" and "Blue Bay," San Pedro Rancho. The Los Angeles Terminal Land Company purchased the property from Josefa Dominguez de Guyer et al.

G. Tomola, who was arrested the other day for knocking down a few teeth down the throat of the proprietor of the Strasburg Hotel, was tried in Justice Austin's court yesterday and convicted. He was sentenced to pay a fine of \$100 and costs, and to be in the hands of the sheriff for 30 days.

The case of William V. Stewart vs. Ella or Emma R. Stewart, an action for divorce, was tried before Judge Smith yesterday morning and judgment was rendered for the plaintiff. The grounds were adultery and proof was adduced through a witness named C. H. Hury, a private detective, that satisfied the Court that there was no doubt about the offence having been committed.

Pegging Down Roses. [American Gardening.]

An admirable way to grow hybrid perpetual roses is by the pegging-down method. This consists of bending and fastening down the shoots to the earth, so that the surface of the bed will be nearly hidden with the foliage, above which the new growth and flowers are to appear. The young shoots of one season are pegged down the autumn following, at which time enough of the old parts are pruned away to give the former place on the plant, such wood should have the young branches cut back to spurs of one or two eyes each. The bed should annually, or at farthest, every second year, receive in full a liberal dressing of rotten manure over the surface.

THE DEMOCRATS.

Preparing for the County Convention—Candidates for Delegates.

The contest that has just been fought to a finish at Stockton will soon have its counterpart at Fresno, where "our friends the enemy" will do battle to hold down chairs at the big Democratic pow wow at Chicago next summer.

It has been extremely calm in this section regarding the question, but things are now warming up, and the fur is flying quite lively—the air a little later on will look like there was being a shower of jack-rabbits.

Hon. Stephen M. White will go as a delegate-at-large without opposition, but when it comes down to the question of representatives from this district all is not so serene. One of the pronounced candidates for preferment is Col. J. D. Lynch of the Herald, and while his party would, no doubt, be glad to honor him, the fear that his pronounced advocacy of the acute Ben Hill of New York has been injurious, appears to be militating against him, consequently the young statesman and granger from San Gabriel, George S. Patton, is being pushed into the fight by an array of friends and may be expected to make a great showing when the county convention gets to work. Mr. Patton is for Cleveland, or any other Democrat, his friends say, and consequently goes into the contest without a hill handicap. As he is a farmer, no doubt he counts upon the hardy yeomanhood of the ranches standing by him. Jesse D. Carr, the Monterey war horse, will probably represent the northern end of the district, but there are others beyond the Tehachepi that have aspirations, who may develop sufficient force to thwart his ambition. The pot is simmering in great shape, and we will see what we will see.

JACK CALVIN'S DEPARTURE.

Numerous Unpaid Bills Left Behind as He Leaves for the Coast.

A young man who signed himself Jack Calvin came to Los Angeles about six months ago and soon enjoyed an extended circle of acquaintances by reason of his gentlemanly, unassuming way in putting himself under obligations to his friends.

"Cal," as he was familiarly called, suddenly disappeared about two weeks ago and since that time several of his too confiding friends have been looking for a small hole through which to crawl out of sight.

"Cal's" acquaintances were formed largely in sporting circles. He dressed fairly well and could play baseball, players, race-horses or prize-fighters entertainingly and frequently received remittances from home, which lent color to his frequent statements about a rich mother. Hence he had little difficulty in contracting hotel bills amounting to something like \$100, the profit and loss page of the day's ledger getting the largest entry.

Alexander Bros. cashed a bogus draft for \$80 to accommodate the young financier pending his next remittance from home. The publishers of the official baseball score-card also contributed \$25. Calvin's true name is said to be Oscar J. Coleman, and it is believed that he went direct to Chicago when he left here.

The Boys' Drill.

The exhibition drill of the Boys' Brigade of the First Congregational Church, given last evening, was an unbounded success. The Boys' Orchestra, consisting of five pieces, under Mr. Taylor, rendered with admirable effect "Let's Start" and "Our Fathers' March." The bugle calls, reveille, tattoo and tips, by the Ferguson brothers, were given very creditably.

Dr. Hughes in his brief address explained the object of the brigade, which, he said, was to develop in the boys habits of neatness, courtesy, promptitude and obedience. Every boy is pledged to abstain from profanity, tobacco and liquor. Romandy was greeted with unbounded enthusiasm. He performed the "Fantasia," by Vieuxtemps, exquisitely and indulgently responded twice to encores; imitating the organ and the bagpipes, and giving the "Angels' Serenade."

Goodenough and Johnson, members of the brigade, played solos, the former upon the piano, the latter upon the harmonica. Both delighted the audience. Mr. Babcock, the baritone, sang finely the solo, "They all Love Jack."

The Awkward Squad provoked limitless mirth.

The drill by company showed remarkable discipline and proficiency, and reflected credit upon the commander, Curtiss D. Wilbur, who is a graduate of Annapolis Naval Academy.

Oranges have taken a drop again, and shipping has practically stopped for the time being. The action of the orange market this season is very peculiar, and the oldest shippers hardly know what course to take. It is only a question of time when all the poor fruit of other localities will be out of the way and so give Alhambra a chance, but when that will be is what our growers want to know.—[Crown Vista.]

THE UNDERTAKERS' BOYCOTT.

To Drive Out a Rival Establishment Don't

A few days ago we published a few facts in regard to a combination or trust known as the Undertakers' Association, at which time we made the statement that all of the old undertaking firms in the city belonged to the "trust," and that they had agreed among themselves to "boycott" any one who should attempt to compete with them, making it impossible for any one not in the combine to buy goods in the East as well as on this Coast. To show the correctness of our statements we give below a copy of the telegram sent to several wholesale houses:

"Will you fill a spot cash order from us for cases?"

"We answer: 'HOWRY & BRESE, Undertakers. And received the following answers: 'SAN FRANCISCO (Cal.), April 19, 1892. 'Howry & Brese, Los Angeles: Yes, if you belong to the Association, not otherwise. [Signed] 'CALIFORNIA CASKET CO. 'CHICAGO (Ill.), April 23, 1892. 'Howry & Brese, Los Angeles, Cal.: Will be pleased to fill your order if members of the Undertakers' Association. [Signed] 'F. H. HILL & CO. 'ROCHESTER (N. Y.), April 25, 1892. 'Howry & Brese, Los Angeles, Cal.: We are not in a position to accept your order. (Signed) NATIONAL CASKET COMPANY."

Notwithstanding the efforts of the combine to place a "boycott" upon us and prevent our getting goods, we are glad to say that we have and will keep a very complete stock of all kind of goods in our line. We furnish hearses free, and charge only \$3.00 for carriages as compared with \$10 charged for hearses and \$5 for carriages by the Undertakers' and Hackmen's Combine.

The above facts being of great importance to the public, we ask a careful consideration of them. Respectfully,

Two Excursion Parties.

Two more large excursion parties arrived from the East yesterday. The first was a regular Santa Fe excursion which left Boston April 28, the passenger list footing up even seventy persons. The second was a Phillips excursion which arrived over the Rock Island, Denver and Rio Grande and Southern Pacific Railroads in charge of C. T. Choate, and numbered fifty-four persons.

MILLINERY SALE.

Prices Made Low to Meet Popular Favor—Largest Assortment in the City.

Very little money goes a long way at Mozer's Millinery Store.

Depend upon it, we are carrying the largest and the finest millinery stock in Los Angeles. We pay strict attention to every detail. Our trimming stylish, our goods the latest. "Look about a bit" and you will soon see that we are the POPULAR MILLINERS, and why? Because our goods are the latest designs and our prices the lowest.

We buy millinery direct from the makers, not from San Francisco nor from Chicago, but from the eastern manufacturers and European importers.

One more reason why. Because we deal exclusively in millinery and buy only for cash, not thirty days nor 60 days, but spot cash. If we can't sell fine millinery cheap no one can.

We beg to announce a large lot of Flowers in high-class grades at unusual low prices to close a job lot of makers.

People's Store!

May 5, 1892.

We have earned some reputation in this community as being progressive and successful merchants. Our branch house, the Maze, in San Francisco, is an evidence of our ability. In ten months we have turned our stock five times. We are doing business there on half the amount of capital invested in Los Angeles and find it the hardest work possible to turn our stock here half as many times in a whole year. "Figures" won't lie, and a good, sound, progressive business policy tells the amount of business we transact should be done on one-half the amount of stock carried by us. We have been aware of this fact for the past two years, but have been endeavoring to increase our business to justify the amount of stock carried, but the volume of trade is not in Southern California, and we have determined from now on to reduce our stock fully one-third in every department, and as heretofore, whenever we have undertaken a business project it is as good as accomplished. You will assist us in this departure, for it is your gain and our loss. We do not intend to herald in flaming notices and large type the overwhelming reduction which we propose to make, but on inquiry at each department you will find the stock reduced to meet your wants.

SHOES.

Our last inventory showed that we had \$45,000 worth of shoe stock in our store. This is \$23,000 more than we should carry at any time. In order to keep shoes neat, fresh and salable the stock should be turned at least four times a year, that gives us sales of \$100,000 in our Shoe Department which is all we ask. Our Mr. D. A. Hamberger has personally gone through this stock and lopped the prices to accomplish this result.

Orin Jones & Co.'s high-cut Greyson French kid shoes, sold in this town by those who keep them at \$7.50.

\$5.00

Orin Jones & Co.'s Greyson French kid shoes, a quality scarcely ever used at present on account of its cost. These shoes sold wherever kept at \$8.

\$4.00

Viegard, Langslow & Curry's finest kid shoes, in button or lace, patent tip ladies' shoes, sold wherever kept at \$5.

\$3.75

Made by the celebrated P. Cox & Co., Rochester, whose name is a guarantee for its value, sold wherever kept for \$5.50.

\$2.00

Misses' heel shoes made by P. Cox & Co., sold wherever kept at \$5.

\$1.00

Misses' Heel Shoes—goods that we had in stock of different makers, from \$1.75 to \$2.75 a pair. We clean out the entire line at \$1.00.

\$1.00

Ladies' Toe Slippers—shoes that sold in various lines at \$1.50 to \$2.00 a pair. They are as staple as 50 pieces. Would bring more money at a forced sale.

\$1.00

Ladies' Genuine French Kid Toe Slippers—sold heretofore with us at \$3.50—closing out this line.

\$1.50

Ladies' Oxfords in plain and patent leather tips, all widths—the shoe that cost us \$2.00. We are closing them out.

\$2.00

A line of very serviceable Men's Bals, which we have reduced from \$3.00.

\$2.50

Lilly, Bracket & Co.'s Men's Button Shoes made of French calf—they cost us \$3.00 per pair. We intended to use them as an eye-opener when we started our store in San Francisco.

\$4.00

Men's French Calf Shoes. The best shoe at the price built in the United States. Made by Lilly, Bracket & Co.

\$3.00

Hanan & Sons' finest French Calf Button Shoes. Each pair cost us \$4.50 at the factory. No better shoe made at any price.

\$5.00

We are the sole agents for the celebrated Hanan & Sons' make of Men's Shoes. One firm alone in this State placed a single order for \$40,000 worth of these shoes, and they get \$5.50 for the shoe that we sell for \$5, and \$8 and \$10 for the one that we sell for \$7. From start to end they are the best men's shoe that is made, and once you wear them you will never be without.

\$5.00

House Furnishings.

Listen, and you will hear something drop in our Crockery Department! It is not the crockery that is smashed, but the prices. We have just opened eight crates of the best English dinner ware, decorated in the various designs, and will sell them to you at our reduction prices.

Two crates of Japanese Mush Bowls, handsomely decorated at 5c apiece. A new case of White Agate Ware just opened. A thousand different varieties of Baskets. We have on sale today a very handsome brass or nickel lamp at \$2.50 that is worth \$3.50. Some surprising values in Glassware, cut to reduce our stock. Drop in this department. It is in our north annex. It contains a thousand different items to use in and about the house, and every one quite a saving to you.

These discounts warrant the fact that we will discontinue as soon as our present stock is sold. KUGEMANN & LICHTENBERGER 107 North Main, near First st.

Our Millinery Dept. is Outselling Every Dep't in the House.

DRESS GOODS.

We opened today a new line of French Crepons, 40 inches wide, in solid colors, making a handsome suit and a sterling value at \$1.00.

A line of Bedford Cord which we show at this price, and a 40-inch French Silk Finished Henrietta, the cheapest dress goods that this house has ever offered at this price. They are sterling values.

All our French Challies, every piece we have in the house we offer at the above price. Some of these goods cost this house

55c and 60c a yard. If these are not sterling values then we have none of them to offer.

The Fancy Plaids, Striped and Checked French Novelties which you see on display in our show window at this price were 90c and 75c a yard. They are offered at a price that should meet with every ready approval.

42-inch all wool Novelty Dress Goods in summer colors. These goods are a special value at 75c. The values that we offer to-day ought to bring us an eager and appreciative class of patrons.

If you will come in and inspect the silks that we advertise at this price they will surprise you. They come in figured, flowered, dotted and plaids. They will not pull at the seams and are the quality that is sold close at 75c.

A line of fancy printed China Silks, 24

inches wide. They would be a sterling value at \$1. They are not old plugs in design. We welcome them as a pleasure to have you look through our Silk stock, note the beauty of our printings, the quality of our silks and the prices at which we sell them. This department will soon ride on the popular wave. It will have as many customers as we have at our domestic counters.

WE CARRY UNIVERSAL PATTERNS.

DOMESTICS.

We start the big cut in our reduction of stock in the Flannel department.

Blue Twilled Flannel, Red Mixed Flannel, Cream White Shaker Flannel, Striped Jersey Flannel, Scotch Shirting Flannel, Plain Blue White Flannel, White Twilled Flannel. These goods sold in our stock from 35 to 50c a yard.

Plain Blue White Flannel, White Twilled Flannel, Plain Red Flannel, Twilled Red Flannel, Cream Shaker Flannel. These goods sold in our stock at 50c.

Plain Blue White Flannel, Twilled White Flannel, Plain Red Flannel, Twilled Red Flannel, Blue Twilled Flannel. These goods sold in our stock at 55c.

Our entire line of imported fancy striped and figured French Flannels for tea gowns, wrappers, house dresses, etc. These goods cost this house 60c per yard. They sold for 75c.

Fancy figured Flannels for wrappers, tea gowns, house dresses, goods that cost this house 30c. They sold for 40c, they are 75 per cent. wool.

A quality of Flannellettes that we have always sold at 15c per yard, we place on special sale today at 10c.

DON JOSE JESUS PICO.

Death of a Historical Character
of California.A Prominent Figure in the Affairs
of Early Days.One of the Most Interesting Episodes
in His Career.

Condemned to Death by Gen. Fremont for Violation of His Parole, He Was Afterwards Pardoned and Became the Pathfinder's Friend.

Don José Jesus Pico, whose death at the old Graves homestead, in San Luis Obispo, Sunday, has been briefly announced in the telegraphic columns of THE TIMES, was a noted figure of the early days of California, and was closely associated with the "Pathfinder," with whom he maintained the most intimate relations. Don José was attacked during the early part of April with a gripple for the second time and succumbed to the malady after a siege of about a month. He was aged 85 years and enjoyed uninterrupted good health until a year ago, when he became a victim of the influenza, but soon recovered.

He was born at Monterey March 27, 1807, and though educated for the priesthood he never took holy orders, but drifted into military pursuits, and during all the years from the invasion by the French commander, Bouchard, and the resultant wars up to and including the conquest by Fremont, he was active in military affairs. Don José was a singularly modest man and extremely reticent concerning his public career, and some years ago he burned all papers and documents in his possession having any historical value.

DON JOSE JESUS PICO.

One of the most interesting episodes in his career, says the San Francisco Examiner, was his arrest for a violation of his parole and his sentence to death by Gen. Fremont. When the treaty of peace was signed at San Luis Obispo, the latter part of 1846, a general parole was granted, and Pico laid down his arms and removed to this place, where he was Administrator of the Mission.

Pico and the other suspects who had been placed under arrest had undoubtedly violated the terms of the treaty, but the court-martial held on the 16th in the priest's room of the mission Pico boldly and with characteristic generosity testified that no one should be blamed for the ill feeling against the Americans but himself, whereupon the court discharged all the prisoners. Pico, who was condemned to be shot at sunrise next morning.

During the day his wife tried, but in vain, to induce her husband to do something toward effecting a mitigation of sentence, so she enlisted the sympathies of her friends, a procession of ladies was formed and Mrs. Pico, Mrs. Wilson (mother-in-law of the present United States Minister to Guatemala) and Mrs. J. J. Simmler, and that evening appeared before Fremont suing for Pico's pardon. The result of that unique appeal is familiar history. Pico was instantly pardoned and became the Pathfinder's most devoted friend, accompanying him later to Los Angeles.

Fremont and Pico's celebrated ride from Los Angeles to Monterey and return in March of 1847, was one of the most thrilling experiences of the kind known to history. These two people have yet who remember that gallant ride and the reception tendered the party here.

Fremont had orders while at Los Angeles to proceed at once to Monterey, a distance of 420 miles, without delay. With Pico and one servant and the goods horses, the Pathfinder reached the rancho of Don Thomas Rebbins, father of George Robbins of San Luis Obispo, a distance of 120 miles, the first day. The next day they rode to San Luis Obispo, making the remarkable distance of 185 miles in one day.

The old Don died sincerely mourned by his hundreds of descendants all over California and by a host of friends.

SCIENCE ASSOCIATION.

The First Field Meeting at Devil's Gate Canyon.

The first field meeting of the Science Association was held on May day at Devil's Gate canyon, near Pasadena. The day was gloomy and the threatening sky deterred all but the most enthusiastic members.

Those who ventured, most of whom were ladies, spent a most enjoyable and profitable day. The Altadena train deposited the party at the Arroyo Park and the members scattering themselves along the meadows wandered their ways to the canyon.

The over-night rain had imparted a dewy freshness to the fields, and though the earlier flowers had already passed the bloom, the meadows were still gay with eschscholtzias, tidy tips and phacelias. Specimens of orchids, on account of their unassuming dress, are not very frequently gathered in this district, so that it was a pleasure to all and a discovery to many to find the sweetly-scented *Isotria medeoloides* so abundantly on the edge of the stream.

The poppies were in great profusion. Besides the common *Eschscholtzia* and cream cups, the *Physalis* *Denticulata* and *Dendromecon Rigida*, the tree poppy, were here gathered. The latter, growing six to eight feet high, and still studded with its yellow blooms, was alone worth a trip to see. The phacelias were here abundant,

mingling their fern-like foliage with the sage brush and poison oak, with here and there large patches of potentilla puberula and *P. glandulosa*.

Passing up the stream, the party passed through the Devil's Gate, where some enterprising Salvationist has painted on the rocks the pertinent precept, "For Heaven or Hell—Choose Ye." One could scarcely repress their admiration for such a humorous association of ideas as this salient must have had, and in harmony with the feeling a facetious member proposed to take the narrow and rocky road up the river, through which the excursionists accordingly explored its way.

Here were found several patches of that somewhat rare and beautiful legume, the Lotus Oblongifolia, from which were culled some handsome specimens, and emerging from the willows, the wash beyond was explored. Here the lay of both species were abundant, and gliss of four or five varieties were gathered, the rarest here being *L. glutinosa*.

Many specimens of the commoner plants and shrubs, such as the wild prunes, cuscara and yerba buena, were here gathered, until, laden with the trophies of the field, the party slowly took its way to the station, thoroughly pleased and profited by its first day's outing.

MONUMENTAL EVIDENCE.

"For Strength, Purity and Wholesomeness, the Royal Baking Powder is Superior to all."

The following certificates from well-known chemists and scientists form as strong an array of evidence as was ever given in behalf of any article of human food:

"We, the members of the Board of Health of the city and county of San Francisco, cordially approve and recommend the Royal Baking Powder. It is absolutely pure and healthful, composed of the best ingredients, of the highest strength and character."

"In our judgment it is impossible to make a purer or stronger baking powder than the Royal."

Jos. R. DIXON, M.D., CHAS. MCQUEEN, M.D., HENRY M. FISKE, M.D., T. J. LEITCH, M.D., Members of the San Francisco Board of Health.

"For purity and care in preparation Royal Baking Powder equals any in the market, and our test shows that it has greater leavening power than any other of which we have any knowledge." W. B. RIMMO, Prof. Chemistry, University of California, and State Analyst.

"From actual analysis made by me, I pronounce the Royal Baking Powder to be the strongest and purest baking powder before the public."

W. T. WENZELL, Prof. Chemistry, College of Pharmacy, University of California, State Board of Horticulture, etc.

"I find the Royal Baking Powder pure, reliable, and one pound to contain 200 cubic inches more available carbonic acid gas than the best of the others." HENRY G. HANES, Chemist, Assayer and Geologist, State of California.

"It is clearly demonstrated and proven that the Royal Baking Powder is pure and wholesome, and that it stands, as far as strength and purity are concerned, at the head of the baking powders of the United States."

GEORGE McOWAN, M.D., Health Officer of the City of Los Angeles, Cal.

"There is, therefore, no question but the Royal is the strongest, purest and most wholesome baking powder in the market." GEO. A. BETHUNE, State Chemist and Assayer, Washington.

"I find the Royal Baking Powder superior to all the others in every respect. It is entirely free from all adulterants and unwholesome impurities, and in baking it gives off a greater volume of leavening gas than any other powder."

WALTER S. HAINES, M.D., Prof. of Chemistry, Rush Medical College, Chicago, Ill.; Chemist to the Chicago Board of Health.

"The strength of Royal is shown to be 28 per cent. greater than any other." "As a result of my investigations I find the Royal Baking Powder far superior to the others. It is pure and contains none but wholesome ingredients."

E. X. VAUGHAN, M.D., Public Analyst, Ontario.

"Finding in analysis that it is made of the highest grade of cream of tartar and bicarbonate of soda, and is entirely free from any adulteration, we heartily recommend the Royal Baking Powder for its great strength, purity and wholesomeness."

"In our judgment the Royal is the best and strongest baking powder before the public. We confidently recommend it because of its purity and care of preparation."

Signed by Members of Board of Health, Seattle, Wash.

"The Royal Baking Powder is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or any injurious substances." E. G. LOVE, M.D., Late U. S. Govt. Chemist.

"The Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public."

HENRY A. MORRIS, Ph.D., Late Chemist U. S. Government.

"PAUL JONES" ON A CRUTCH.

Miss Agnes Huntington a Woman of Wonderful Pluck.

The audience at the Grand Opera-house was considerably surprised when the handsome opera singer, Miss Alice Huntington, appeared with a badly swollen ankle, her injuries necessitating the use of a stick in getting about the stage. But few really imagined how badly the lady was hurt and the suffering she must have endured during the evening. A special dispatch from Fresno, of date May 2, gives the details of the accident as follows:

Miss Agnes Huntington, the opera singer, met with a severe accident this evening just before the curtain rose on the first act of *Paul Jones* in the Barton Opera-house. She was walking across the stage when her right foot went through a hole in the flooring and she was thrown heavily to the ground. Her right ankle was badly sprained. A physician was sent for and found that some of the ligaments were broken. Although suffering terribly Miss Huntington decided not to disappoint the audience, and securing a crutch, plucked her way through her part. Her limb was swollen considerably, and it will be weeks before she will entirely recover.

Too Suggestive.

[New York Herald.] T. Cascahow Jenks (to his new valet.) And what is your name, my good man?

The valet. Bill, sir.

T. C. J. Well, you would better not come. With such a name I should probably forget to pay you.

THE COURTS.

The Trial of the Kaweah Colonists Continued.

Some Very Damaging Testimony Introduced by the Prosecution.

Money Paid in for Which no Account Has Been Rendered.

A Peculiar Suit Instituted Against the Public Administrator—The Chase Murder Trial—General Court Notes—New Cases.

The trial of the case against Burnette G. Haskell and four other trustees of the Kaweah Cooperative Colony Company, charged with having used the mails for fraudulent purposes, was resumed before Judge Ross and a jury in the United States District Court yesterday morning and occupied their attention all day.

The witness Windels was recalled for further cross-examination, and Attorney Dillon resumed his reading of the pamphlet, "The Commonwealth," to the jury, the complainant having testified that he sent \$225 to the defendant Martin on the strength of the representations made therein.

He was followed by Andrew Cauldwell, who was until recently in the Secret Service Department of the United States. He testified to having made a thorough investigation of the Kaweah colony scheme about a year ago, as the result of which he found that the company did not have any right, title or interest in the land, which it claimed, and the only property which it owned in Tulare county, according to the official records, was a homestead of 160 acres up in the mountains, which had been conveyed by Mrs. Haskell to the colony, but had not been occupied by the colonists.

During the afternoon session Inspector H. Flint of the Post Office Department, was called by the Government and also testified to having examined the Tulare county records with the same result.

C. F. Keller was then called and testified that he was one of the originators of the Kaweah colony, and paid a certain amount toward the capital stock which was said to be \$50,000. He subsequently found that the company had been reincorporated, with the defendants as trustees, and that he had been "frozen out" and his money absorbed in the deal. A copy of the Commonwealth of February, 1892, containing what purported to be a list of the membership of the colony, was introduced in evidence, and thirteen photographs of various scenes of the site of the colony were also filed as exhibits.

Frank E. Westervelt, a member of the auditing committee of the colony, the next witness, proved to be a very damaging one. He testified that he made a very searching examination of the books of the company and found a number of discrepancies therein. One item, of which he had never been able to get a lucid explanation, was the placing of \$400 each month to the credit of what was called the "unknown" fund. A number of receipts and vouchers were introduced in evidence. When court adjourned for the day the witness was still upon the stand, and his examination will be resumed this morning.

Just before the adjournment H. C. Dillon, Esq., of counsel for the defense, called the attention of the court to the fact that the witness Cauldwell was in the courtroom and asked that he be excluded. As, however, the United States District Attorney did not intend to recall him and he had not been subpoenaed by the defense, counsel for the prosecution claimed that he had a right to remain. It was urged by Attorney Dillon that witnesses who had been called might remain in the room and after hearing the testimony notify those who had not yet been called of what had been sworn to. Judge Ross remarked that such a course would be the worst form of contempt of court and that he would not fail to deal severely with any person who dared to speak to any one about what had been testified to in court for money for services rendered.

The case of A. W. Gardner vs. G. L. Dennison et al., an action to recover the sum of \$771 alleged to be due as the balance of an account for services rendered by plaintiff to defendants, came up for trial before Judge McKinley and a jury in Department Six yesterday, W. T. Williams, Esq., appearing for plaintiff, and E. C. Bower, Esq., for defendant.

By agreement of counsel the following six jurors were accepted and sworn to try the case: J. H. Alderson, H. T. Bingham, A. V. Dunsmoor, W. T. Henry, C. E. Patterson and H. J. Stewart. Plaintiff alleged that he was employed by defendant from August 8, 1889, until August 5, 1891, to attend to eight ostriches at their place at \$30 per month, but that they had only paid him \$429 of the sum due.

The defendants, on the other hand, claimed that they only agreed to pay \$40 per month, and by way of a counter claim alleged that after paying him the full amount of his wages there was still due to them the sum of \$412, being the balance of a running account between them.

The matter was finally submitted to the jury at 4:45 o'clock.

A PECULIAR SUIT.

A peculiar suit was commenced in the Superior Court yesterday by Lucy Thompson, Enquirer against D. W. Field, as administrator of the estate of Allen Cann, deceased, to compel the specific performance of an agreement. The allegations of the complaint are as follows: In November, 1883, plaintiff was a child 9 years old, daughter of William H. and Mary Thompson of this city. Allen Cann and his wife entered into a contract at that time with the parents of the plaintiff whereby they agreed to adopt plaintiff, and leave her all their property when they should die. Plaintiff accordingly went to live with the Canns and was with them when they both died.

The defendant, D. W. Field, as public administrator, took charge of their estate, which amounts to about \$1000, but omitted plaintiff from the list of distributees, wherefore she sues the administrator for a specific performance of the alleged contract.

CHINESE MURDER TRIAL.

In Department Five yesterday the trial of the Ah Len murder case again occupied the sole attention of Judge Shaw and a jury all day, the following witnesses were called and examined for the prosecution: Ah Nuey, Lu Sney, Ah Chin, Officer Sam Dugan and ex-Officer C. E. Wallin. This closed the case for the State, and the defense then

called George Redding and Henry Wood, court adjourning for the day at the close of the latter's testimony.

Court Notes.

In Department Three yesterday morning Judge Wade tried the case of A. H. Johnson vs. E. F. Spence, an action to compel the conveyance of certain partnership property, and after the pleadings, as amended, had been read, the testimony of the plaintiff heard, and a statement of the accounts of the parties introduced in evidence, the court ordered judgment for the plaintiff therein as prayed for.

In Department Four yesterday afternoon the case of La Société Française d'Epargne et de Prévoyance, Mutuelle vs. J. C. Koford et al., an action to foreclose a mortgage for \$5998.95, came up for hearing before Judge Van Dyke, who ordered a decree for the plaintiff therein as prayed for, by default.

The trial of the injunction suit of the Los Angeles Farming and Milling Company vs. William H. Hoff, Jr., and 185 others, was resumed before Judge Van Dyke and a jury in Department Four yesterday morning, and occupied their attention all day. Only two witnesses were examined for the plaintiff, and the chances are that, at the present rate of progression, the case will last a week at least.

In Department Six yesterday morning the defendant in the case of Joseph Messmer, administrator, vs. Daniel Kevane, was granted three days' additional time by Judge McKinley within which to file his undertaking in the sum of \$1000 for the use and occupation of the premises in controversy, pending the decision of the Supreme Court on the appeal thereof.

George F. Thompson, Charles Haller and Silver Haller, three natives of Germany, were duly admitted to citizenship of the United States by Judge McKinley yesterday, upon producing the necessary proofs of residence here and taking the required oaths of renunciation and allegiance.

New Suits.

Among the documents filed with the County Clerk yesterday were the preliminary papers in the following new cases:

Philly Newhall vs. Frank W. Benton et al.; suit to foreclose a mortgage for \$1450.

Lucy Thompson Enriquez vs. D. W. Field, administrator; suit to compel the specific performance of an agreement.

David Harris vs. David Emerson; suit to foreclose a mortgage for \$2000.

PUBLIC LIBRARY.

A Deficiency of \$3500 for the Fiscal Year—Librarian's Report.

The regular monthly meeting of the board of directors of the Los Angeles Public Library was held yesterday afternoon at 4 o'clock, there being present Directors Davies, Howard, Severance, Smith and President Robinson.

Bills to the amount of \$916.89 were approved and ordered paid.

The librarian, Miss Kelo, reported that during the month 28,534 books had been circulated, that the present membership of the library numbered 7943. There were 50 books donated during the month. The financial statement of the library showed that there would be a deficiency of \$3500 for the necessary expenses of the current fiscal year; it was also shown that it would be necessary to duplicate a large quantity of books that had been rapidly worn out owing to the enormously increased circulation. It was decided to make an appeal to the Council for an immediate further appropriation.

On the question of sending a delegate to the annual convention of the Library Association to be held in Washington this month, the matter was discussed informally and the conclusion arrived at that unless the Council would grant the necessary funds for that purpose the expense should not be incurred.

The board then adjourned.

THE WORLD'S FAIR.

Meeting of the Southern California Association.

Pertinent Suggestions Submitted by State Commissioner L. J. Rose.

A Letter from Chief Samuels as to Outdoor Space.

California is Promised the Consideration Her Enterprise Deserves—A Classified Exhibit of the Six Counties Proposed.

The regular meeting of the Southern California World's Fair Association was held in the rooms of the Chamber of Commerce of Los Angeles yesterday at 10 a. m.

The members present were Thomas R. Bard, Hueneme; R. H. Young, J. P. Jones, San Diego; W. C. Kimball, National City; G. H. Crafts, Redlands; A. C. Fish, Riverside; J. F. McIntyre, Fillmore; Ed Dunham, La Cañada; C. A. Coffman, Rivera; C. M. Mills, E. F. C. Klokke, L. E. Mosher, Charles Forrester, Frank Wiggins, Los Angeles.

Thomas R. Bard occupied the chair. Frank Wiggins acted as secretary.

Hon. L. J. Rose being present the order of business was suspended in order to allow him to address the association on the necessity of active work being kept up in the preparation of Southern California's World's Fair exhibit, as the northern part of the State is fully convinced that this association is doing active and effective work and is making extra exertions to, in a measure, outdo us. This being a golden opportunity for Southern California to advertise her resources, it is necessary that every one connected with this association should see that his particular district carry out the work in detail. He spoke in favor of Southern California making a classified exhibit of the six counties within the State building as the ruling of the commission permitted.

The question was asked the Senator whether in making this classified exhibit the county exhibitor would lose their identity. He saw no reason why they should, as each locality and individual would be properly credited with the exhibit they properly presented. A letter from Chief Samuels in which it was stated that the five acres on the wooded island had been planted in flowering plants and ornamental evergreens and could not be used by California. One acre is the most that can be used in one body. This is situated one and one-half miles from the lake. The advantage of this location is that it will be less subject to the cold winds from off the water. It is adjacent to the carriage entrance to the grounds and elevated railway station, making upon the whole a very desirable locality. Other areas can be assigned California for special exhibits around the department buildings if the board desire. Chief Samuels in the same letter stated that he was anxious to extend every possible facility to California that the enterprise of the State justified him in doing, but that he had never been able to evolve any plan by which he could put a bushel of corn into a half-peck measure and he hoped that the commission would appreciate his efforts in behalf of the State.

After answering a few minor questions the Senator assured the association that he would secure for it one-half of all outdoor space that was assigned to California. He retired with the remark that "he was glad to see such a lively interest manifested in the World's Fair work in this district."

The association then proceeded to regular business. Mr. Wells then arose and asked permission to offer the following resolution, though not in order. The same was granted:

Resolved, as the sense of the Southern California World's Fair Association, that the six counties forming this district should, with the other counties of the State, make a classified State exhibit within the State building, and that the products of the counties of this district shall be shown as a unit, but in such manner that each county shall preserve its identity in each class, and shall receive full credit for all exhibits furnished to the general exhibit.

This resolution was unanimously adopted.

The secretary then read a communication from Ventura county wherein it was stated that J. F. McIntyre of Fillmore was elected by the Board of Supervisors to fill the vacancy caused by the resignation of Mr. Blanchard. Upon motion Mr. McIntyre was duly received as a member of the association.

The association then adjourned until 1:30 p. m.

AFTERNOON SESSION. Upon reconvening, it was moved and carried that the Southern California World's Fair Executive Committee be empowered to employ a superintendent or manager to look after the preparation of the exhibits from the six counties comprising this association and be paid for his services by the association, provided the State failed to appoint a manager for the same purpose.

Considerable discussion was entered into relative to application for space in the department buildings. It was decided, however, that as the space in these buildings could only be determined by the application of individual exhibitors to make application as a whole and it was the expression of the members that the individual exhibitors should make application direct to the department. The association, however, was to see that proper exhibits were made in the department building if the exhibitors failed to make application.

The association then adjourned, to meet August 8, at 10:30 a. m.

EXECUTIVE COMMITTEE MEETING. The meeting of the Executive Committee was then called to order by Mr. Kimball. All the members were present except three. The minutes were adopted as read before the association in the morning session.

The reports of the standing committees were favorable and showed that active work was being done.

The Citrus Tree Committee reported the number of trees required to fill the allotted space in Horticultural court and grounds, 233, of which there were about 130 collected, with three counties to hear from.

The Committee on Dried and Canned Fruits reported for adoption for displaying this class of goods of the following styles: Globe, sample bottles, Egyptian, sectional and inverted bottles.

Upon motion a special committee was appointed, consisting of Messrs. Young, Bard and Crafts, to make an order for the different styles above mentioned and solicit bids for the same and make a contract for the immediate delivery of what they thought the association would need for the different counties. This was understood to be independent of the styles adopted by the canneries that intend making a display.

A special committee was also ap-

pointed, consisting of L. E. Mosher, G. H. Crafts, E. F. C. Klokke, J. F. McIntyre and W. C. Kimball, to formulate plans for preparing a certificate to be issued to honorary members of the association and report at the next meeting. The committee then adjourned to meet June 1, at 2 p. m.

WONG CHEE DISCHARGED.

The Charge of Murder a Third Time Dismissed.

Police Justice Austin decided the Wong Chee murder case in favor of the defendant and ordered Chee released from custody yesterday morning.

In summing up the case the Court stated that he is confident that a great injustice has been done the Chinaman. Chee has a number of enemies in Chinatown and they have been trying for a number of years to get him out of the way. Once before a job was put up on him and he was given a life sentence in State's prison for murder. He served four years, when it was learned that he was perfectly innocent of the murder and knew nothing about it. He was at once pardoned and, and the prison directors stated that they were positive that he was not implicated in the murder in any way whatever.

In this case he has been arraigned and examined three times, but his enemies are not through with him and declare that they will get him yet.

New Incorporations.

Articles of Incorporation were filed with the County Clerk yesterday by the Almondale Company, formed for the purpose of purchasing, improving and selling real estate, storing water, planting orchards, etc., with a capital stock of \$25,000, of which \$10,000 has been actually subscribed. Its place of business is at Pasadena and its board of directors consist of Edward M. Durant, Robert D. Durant, C. H. Durant, Pasadena, Edward M. Durant of Fairmont and L. S. Porter of Lamanda Park.

The First Methodist Episcopal Church of Redonda Beach also filed articles yesterday, its board of trustees consisting of W. R. Steele, J. A. Jaynes, P. H. Clark, J. A. May and Peter Brown.

Why Suffer When Relief is Sure?

HEMORRHOID PILE SALVE IS THE LATEST.

A noble remedy for the positive cure of Blind, Bleeding, Itching, and protruding piles. This salve has been in use both in the East and West for years and all that have given it a trial speak loud in its praises. The acute pain ceases immediately on its application, and a cure is permanent. This valuable salve is the product of long years of continued experiments by a well-known Pacific Coast Pharmacist, and its use has given the best possible results. For sale by all druggists in large metal capped glass jars, price \$1.00. Suppositories of the same composition sent by mail, on application, at the above price.
